*Innovative, meticulously researched and inspired by true crime stories from the Victorian era, our walks are designed to offer an informative and unique experience, with a professional and spirited storyteller.*

*Our coterie of storytellers includes the celebrated Lady Brigante - a sleuth of infamy, wanderer of unquiet graveyards and the bete noire of the long-forgotten dead.*

*The Polite Tourist presents a Saturday evening walk in Scarborough - [Sleepless in Scarborough](#)*

*Situated on the exhilarating coastline of North Yorkshire and affectionately known as the “Queen of English watering places,” Scarborough occupies a fascinating place within the history of seaside resorts.*

*Along with a history of besieged castles, dinosaur remains, literary prodigies, fishing ports, religious persecution, folklore, medicinal drinking waters, smuggling, and pirate radio - Scarborough enjoys an enduring charm.*

*For those of a curious and hardy temperament - why not come along and listen to The Polite Tourist one Saturday evening in Scarborough, as they share with you the tales of those ordinary folk including the tragedy of an unwanted child, and the mystery of a besotted spouse.*

*Hear also of poignant tale of a confused domestic servant and the callous behaviour of a father.*

*And ALL lost to history - until now!*

*However, for those of a sensitive nature who are averse to real stories of tears, heartache and tragedy - a walk with The Polite Tourist one Saturday evening in the Town of Scarborough may NOT be to your taste!*
